Mission

Sunrise Education Academy prepares students to understand, contribute to, and succeed in a rapidly changing society, thus making the world a better and more just place. We will ensure that our students develop both the skills that a sound education provides and the competencies essential for success and leadership in the emerging creative economy. We will also lead in generating practical and theoretical knowledge that enables people to better understand our world and improve conditions for local and global communities.

Vision

We are and will be a university where **design and social research drive approaches to studying issues of our time**, such as democracy, urbanization, technological change, economic empowerment, sustainability, migration, and globalization. We will be the **preeminent intellectual and creative center** for effective engagement in a world that increasingly demands better-designed objects, communication, systems, and organizations to meet social needs

Our vision aligns with shifts in the global economy, society, and environment, which animates our mission and our values:

- **Creativity, innovation**, and a desire to **challenge the status quo** will affect what and how we teach and the intellectual ambition of the university itself.
- **Social engagement** should orient students' academic experiences to help them become critically engaged citizens, dedicated to solving problems and contributing to the public good.
- Sunrise Education Academy must embrace these principles and innovate to address shifts in the global economy, society, and environment that require individualists to grapple with complex problems, pursue more fluid and flexible career pathways, and collaboratively create change.

Principal Message

I welcome you all to an outstanding learning community where everyone is dedicated to a high standard of excellence. We truly have a fantastic school with a supportive and involved parent community, dedicated and highly skillful staff, excellent resources and buildings and the most fantastic students to work with

Director's Message

The world is changing at an accelerated rate & we as educators need to pause & reflect on the entire system of education. Are schools well equipped to prepare our children to face the challenges the future holds for them? These factors motivate us towards a continuous process of reflection. Thus we need to forge ahead with a well balanced curriculum, facilities that nurture not only academic areas but co-curricular areas too.

A mission that aims to Educate, Enlighten & Empower has proved to be successful time & again. Our mission is to provide an outstanding education and inspire our students to engage in both academic and enriching extra-curricular programmes. We aim at sharpening of skills and enhancement of knowledge base in our students through various extra-curricular, co-curricular and curricular activities. This is enabled through our faculty who not only keep themselves at par with the current developments but also contribute to the expansion of the body of knowledge in their field of expertise. Our students set high expectations for themselves, enjoy school and the community is constantly rewarded by their achievements.
